Bangalore, India

JavaScript | React developer with 2+years of experience in building and maintaining modern web applications. Proficient in JavaScript, HTML, and CSS with a strong understanding of React concepts such as state management and the component lifecycle. Skilled in working with REST APIs and data management tools such as Redux.

WORK EXPERIENCE

Software engineer
TechValens

08/2023 - 03/2024   *Indore*

Achievements/Tasks
- Creating and designing HTML, CSS, and JavaScript-based responsive and user-friendly web interfaces.
- Designing user interfaces that are easy to use and aesthetically pleasing to improve engagement and user experience.
- Optimizing web apps to increase scalability and speed while improving user experience.
- Applying methodical debugging and problem-solving techniques to locate and fix bugs and other issues .

Associate Software Technologist
CES-IT

01/2022 - 01/2023   *Chennai*

Achievements/Tasks
- Built and maintained a large-scale React.js web application with a focus on performance and scalability.
- Implemented features such as authentication, authorization, and data management using React, Redux, and REST APIs.
- Collaborated with cross-functional teams including designers, project managers, and QA testers to ensure the delivery of high-quality products.
- Worked closely with the design team to implement responsive layouts and ensure a seamless user experience

EDUCATION

M.E
IET DAVV

07/2017 - 09/2019

Project
- Product Recommendation System

B.E
IET DAVV

07/2014 - 05/2017

Project
- Online Grocery Store

SKILLS

React JS | Redux | JavaScript | HTML | CSS | BootStrap | Sass | GitHub | NPM | jira | RESTful APIs | ES6 | Webpack

PERSONAL PROJECTS

Test App (06/2023 - Present)
- Full Stack: A web application that combines the front end and back end.
- Data Flow: Redux store receives one-way data flow from front-end components.
- Side Effects: Using Redux Saga, side effects like API requests may be managed independently.
- Managing real-time updates that are sent from the back end to the front end.
- Implementing error handling and presenting error messages is known as error handling.
- Scalability: Considering scalability and potential performance improvements.
- Git repo frontend - https://github.com/PriyankaBawanna/TestApp.git
- Git repo Backend - https://github.com/PriyankaBawanna/TestAppBackend.git

CRM Admin system (04/2022 - 05/2022)
- Designing and implementing UI components using ReactJS.
- Developing responsive UI layouts that work across different devices.
- Troubleshooting various issues related to the project.
