WORK EXPERIENCE

Full Stack Engineer Intern | Wanderleaf Technologies
January 2024 - Present

- As a full stack engineer intern working with Next.js and TypeScript, I have actively contributed to the development of scalable and responsive web applications. Utilizing my expertise in TypeScript, I have been instrumental in building robust front-end interfaces with Next.js. Additionally, I have collaborated with backend developers to integrate APIs and optimize data flow, enhancing the overall performance and functionality of the applications.

Full Stack Developer | Kirabiz Technologies
January 2023 - November 2023

- As a Full Stack Developer , I actively contributed to the end-to-end development of web applications using the MERN stack. In this dynamic role, I gained hands-on experience in designing and implementing scalable backend systems, developing responsive and user-centric frontend interfaces, and integrating seamless communication between the two components.
- Create scalable code for customer business solutions, identify bugs and product defects, and coordinate with team members to resolve critical technical issues.

SKILLS

- HTML
- CSS
- JavaScript
- TailwindCss
- React.Js
- Node.Js
- Express.Js
- MongoDB
- Next.js
- Responsive Web Design
- Debugging

PROJECTS

HiPowerBatteries

- As a dedicated member of the three-person development team, I played a pivotal role in the end-to-end creation of the HiPowerBatteries project, showcasing my proficiency in the MERN (MongoDB, Express.js, React, Node.js) stack.
- As the Backend Developer, I took on the responsibility of architecting and implementing the entire backend infrastructure, including the development of robust APIs to support seamless communication between the frontend and backend.

StudyNotion

- StudyNotion is a fully functional ed-tech platform that enables users to create, consume, and rate educational content. As a Full Stack Developer, I played a pivotal role in building this platform using the MERN stack, which includes ReactJS, NodeJS, MongoDB, and ExpressJS.
- StudyNotion aims to provide: − A seamless and interactive learning experience for students, making education more accessible and engaging. My contributions as a Full Stack Developer involved working on both the frontend and backend aspects of the application, ensuring a cohesive and responsive user experience while leveraging the power of the MERN stack to deliver robust functionality."

EDUCATION

Master of Computer Applications (MCA)
August 2022 - June 2024

Manipal University, Jaipur(Raj.)

(CGPA - 8.16/10)

Bachelor of Computer Applications (BCA)
June 2019 - June 2022

Pandit Deendayal Upadhyaya
Shekhawati University Sikar(Raj.)

(Percentage - 73.23%)
