👤 PROFESSIONAL SUMMARY

"I am a highly skilled Full-Stack Web Developer with over a year of extensive hands-on experience in pivotal technologies such as HTML, JavaScript, React JS, Express, and MongoDB. Additionally, I have garnered invaluable expertise as a manual QA tester, ensuring top-notch quality in web applications. My proficiency extends to AI tools, augmenting my ability to deliver innovative solutions. Specializing in the seamless development and deployment of web applications, I possess adeptness in API integration, contributing to enhanced functionality and user experience."

🎓 EDUCATION

• **Full-Stack Web Development (MERN)**
Masai | Bangalore

• **B.tech (Electrical Engineer)**
S.S College of Engineering Udaipur | Rajasthan

• **Diploma (Electronic & communication)**
K.K. Polytechnic Dhanbad | Jharkhand

🎖 TRAININGS CERTIFICATIONS

• Doordarshan Maintenance Center and Tv relay Center of vocational training.

• Damodar Valley Corporational owned power generator of vocational training.

💼 PROFESSIONAL EXPERIENCE

Software Engineer
Tata Teleservices Ltd
Aug 2022 – Dec 2023 | Noida
- Utilize HTML to make websites easy to use.
- Enhance websites running well and make them better.
- Ensure websites load fast.
- Debugging the errors.

💡 PROJECTS

1. TheBrandBee_Clone.Com 🔗
"The BrandBee website describes branding as the process of creating a distinct identity for a business in the minds of your target audience and the general population."
Dec 2023 – Feb 2024
- **GitHub** 🔗

- **Tech Stack:** HTML | CSS | JavaScript | React Js | Tailwind Css | IFrame | Chakra UI |

Project Details: This project was a solo effort where I utilized HTML, CSS, JavaScript, and React to build a website. I primarily focused on the CSS development, creating the navbar, landing page, and several additional pages along with the footer. Notably, I implemented a carousel slideshow and animation effects. While the project primarily used static content, it also incorporated an iframe to display a YouTube video directly.

2. OneStop_Clone.Com 🔗
"I was responsible for managing product listings, optimizing product descriptions, and coordinating marketing campaigns to boost sales on the e-commerce website."
- **GitHub** 🔗

- **Tech Stack:** HTML5 | CSS3 | JavaScript | Chakra UI| React | Redux | Context-API | Json-server | API.

Project Details: This was a collaborative project, where I utilized React and React-Redux to create a website. Within the project, I developed various pages, including SignIn, SignUp, Home, Product, Cart, Payment, and Admin. React-Redux played a significant role in making API calls and managing the application state. Additionally, the data was stored in a JSON server database, enabling the admin to access and perform operations such as adding, deleting, and updating products.

🧠 TECHNICAL SKILLS

HTML | CSS | JavaScript | React | Redux | Node.js | Express.js | MongoDB | Chakra UI | Tailwind CSS | Manual Testing

🎓 SOFT SKILLS

Adaptability | Self-Motivated | Team player with strong communication and problem-solving skills

🎮 HOBBIES | INTERESTS

Listening music | Play Cricket Traveling | Video Game | Cooking

🎤 LANGUAGES

English | Hindi
